	Files of type:	Executables (*.exe)		<b>.</b>	Cancel

**Figure 3.** When you click on the **Add** button you will have to browse to the **Hauppauge MediaMVP** directory in the **Programs** folder on your local disk C:. You will need to repeat this step 5 times so that you can allow the following files through the Norton software.

From the main **Hauppauge MediaMVP** folder: **MVPmedia.exe Mvpstart.exe Addportmapping.exe** 

From inside of the **MediaMVP** folder, go to the **Hardware** folder and add the following: **Dglsvcmain.exe Hcwsms.exe**
